without permission of the editor.

This transcription contains the records found in the first of two Death Registers found in the Greene County Courthouse in Waynesburg, Pennsylvania. This book contains deaths recorded between 1893 and 1902, and includes a few deaths from 1892. The transcription was done from digital images of the book's pages taken in December of 2000. The transcripts were then compared to the original records and transcription errors corrected where they were found. Every effort has been made to transcribe the records as they appear in the book, however some records were difficult to read due to the legibility of the recorder's handwriting. Question marks within the transcription indicate those instances where it was too difficult to ascertain what was written in the original record. The records are arranged here as they are in the book. An alphabetical name index of all the records can be found at the end of the transcription.

This transcription can also be found on the World Wide Web at:
